

Abdul Rehman

Full-Stack Developer

Peshawar, Pakistan | +92 318 5318156 | iam.abdulrehman.dev@gmail.com | linkedin.com/in/abdul-rehmandev | github.com/AbdulRehman-z

Experience

Codeclub TypeScript, Go, React, Next.js, TanStack Start, PostgreSQL, Redis Dec 2025 — Present
Full Stack Developer (Full-time) Peshawar, Pakistan

- Engineered secure, wallet-integrated payroll with atomic transactions for the Muftah Chemicals ERP, plus Bradford Factor attendance tracking, role-based client features, and server-side pagination for large-scale finance data.
- Built Edwardians Academy, an institute management platform covering admissions, academic scheduling, multi-tier financial accounting, campus gate security, and student learning tools.
- Developed Sayaratak (سياراتك), a full-stack automotive marketplace for Sudan with a REST and WebSocket API, an SSR web app localized in Arabic (RTL) and English, and mobile-ready endpoints for upcoming iOS and Android apps.
- Resolved critical bugs across finance, user management, and reporting for two MDCAT prep academies, and built fee slip generation, student record management, and financial reporting.
- Took on a technical HR role for Codeclub, interviewing engineering candidates and training incoming interns across full-stack, frontend, and backend tracks.

Cure AI (Digi Rehab) Python, LangChain/LangGraph, Redis, TypeScript, React Mar 2026 — Present
Project Lead & Full Stack Developer (Part-time) Peshawar, Pakistan

- Led Digirehab as sole technical lead, an end-to-end physiotherapy patient management platform with treatment and compliance tracking, plus a Redis-backed AI voice agent that auto-generates clinical assessments from live consultations.
- Built Statistical-Agent, an autonomous agent that runs a perceive-plan-act-reflect loop to analyze Excel and CSV survey data, including Likert scoring, chi-square tests, and logistic regression, from a plain-English request.

Education

Azad Islamia Degree College 2020 — 2024
BSCS Charsadda, Pakistan

Government Post Graduate College 2018 — 2020
FSC Attock, Pakistan

Skills

Languages: TypeScript, Go (Golang)

Frameworks: React, Next.js, TanStack Start, Node.js, Express.js, Fiber, Bun.js, FastAPI, gRPC, LangChain/LangGraph

Databases & ORMs: PostgreSQL, Redis, MongoDB, Supabase, Drizzle ORM

Styling & UI: Tailwind CSS, shadcn/ui

Auth & DevOps: Better Auth, Docker, Apache Kafka (basics), Nginx (basics), Git/GitHub
